After 8 years of R & D, Western scientists have proved that at Lord Nataraja's big toe is the Centre Point of World's Magnetic Equator.

Our ancient Tamil Scholar Thirumoolar has proved it 5000 years ago!

His treatise Thirumandiram is a wonderful scientific guide for the whole world.

To understand his studies, it may need 100 years for us.

Chidambaram temple embodies the following characteristics:

- 1) This temple is located at the Center Point of world's Magnetic Equator.
- 2) "Pancha bootha" i.e. 5 temples,
Chidambaram denotes the Skies.
Kalahasthi denotes Wind.
Kanchi Ekambareswar denotes land.

All these 3 temples are located on a straight line exactly at 79 degrees 41 minutes Longitude. This can be verified using Google.

An amazing fact & astronomical miracle!

- 3) Chidambaram temple is based on the Human Body having 9 Entrances denoting 9 Entrances or Openings of the body.
- 4) Temple roof is made of 21600 gold sheets which denote the 21600 breaths taken by a human being every day ($15 \times 60 \times 24 = 21600$)
- 5) These 21600 gold sheets are fixed on the Gopuram (Tower) using 72000 gold nails which denote the total no. of Nadis (Nerves) in the human body. These transfer energy to certain body parts that are invisible.
- 6) Thirumoolar states that man represents the shape of Shivalingam which represents Chidambaram, Sadashivam and HIS dance!
- 7) "Ponnambalam" is placed slightly tilted towards the left.
This represents our Heart.
To reach this, we need to climb 5 steps called "Panchatshara padi"
"Si, Va, Ya, Na, Ma "

are the 5 Panchatshara mantras.

There are 4 pillars holding the Kanagasabha representing the 4 Vedas.

- 8) Ponnambalam has 28 pillars denoting the 28 "Ahamas "as well as the 28 methods to worship Lord Shiva. These 28 pillars support 64 +64 Roof Beams which denote the 64 Arts. The cross beams represent the Blood Vessels running across the Human body.
- 9) 9 Kalasas on the Golden Roof represent the 9 types of Sakthi or Energies. The 6 pillars at the Artha Mantapa represent the 6 types of Sashtras. The 18 pillars in the adjacent Mantapa represent 18 Puranams.
- 10) The dance of Lord Nataraja is described as Cosmic Dance by Western Scientists.

How do you mean the centre point of the world is in Chidambaram?

It is claimed that the Chidambaram temple is the centre point of the Earth's magnetic

equator, the point where the magnetic field is parallel to the Earth's surface. However, as of 2010, the magnetic equator passes off the southern end of India, through Sri Lanka. The Earth's magnetic field is slowly changing, so perhaps historically, this claim may have been true. The "population centre" of the Earth is approximately in Kashmir, about 2600 miles away.

Recent million dollar research by several countries claimed that 'Chidambaram Temple' (Tamil nadu, India) is the Centre Point of World's Magnetic Equator, the point where the magnetic field is parallel to the Earth's surface.

But a Tamil Siddhar (Sage) named 'Thirumoolar' in his book 'Thirumanthiram' about 5000-6000 years ago already revealed this fact by his poetic lines clearly.

However, if you would rather trust the National Oceanographic and Atmospheric Administration (the entity responsible for accurate magnetic readings that can be used to land an airplane in the dark), then the magnetic equator misses India entirely. A detailed map can be found at the NOAA

website.

The dancing pose of Lord Shiva is already revealed the formation of the universe and a recent research about God particle proved it. But a Tamil Siddhar (Sage) named 'Thirumoolar' already written this fact in his book through his poetic lines 5000-6000 years ago.
